

New Jersey Resident Deaths by Year, Month, and County of Residence

2015-2018 Final Data

2019-2020 Provisional Data

Provisional Data: Caveats for 2019 and 2020 Death Counts Presented In This Document

Provisional means "temporary." These counts will change.

This document will be updated daily Monday-Friday, by 12 p.m. EST.

The "as of" dates in the Graph, 2019, and 2020 sheets show when the data files were last updated.

2019 and 2020 data are incomplete. The death certificate data for some residents who died out-of-state have not yet been received.

New York City is where the majority of New Jersey's out-of-state deaths occur.

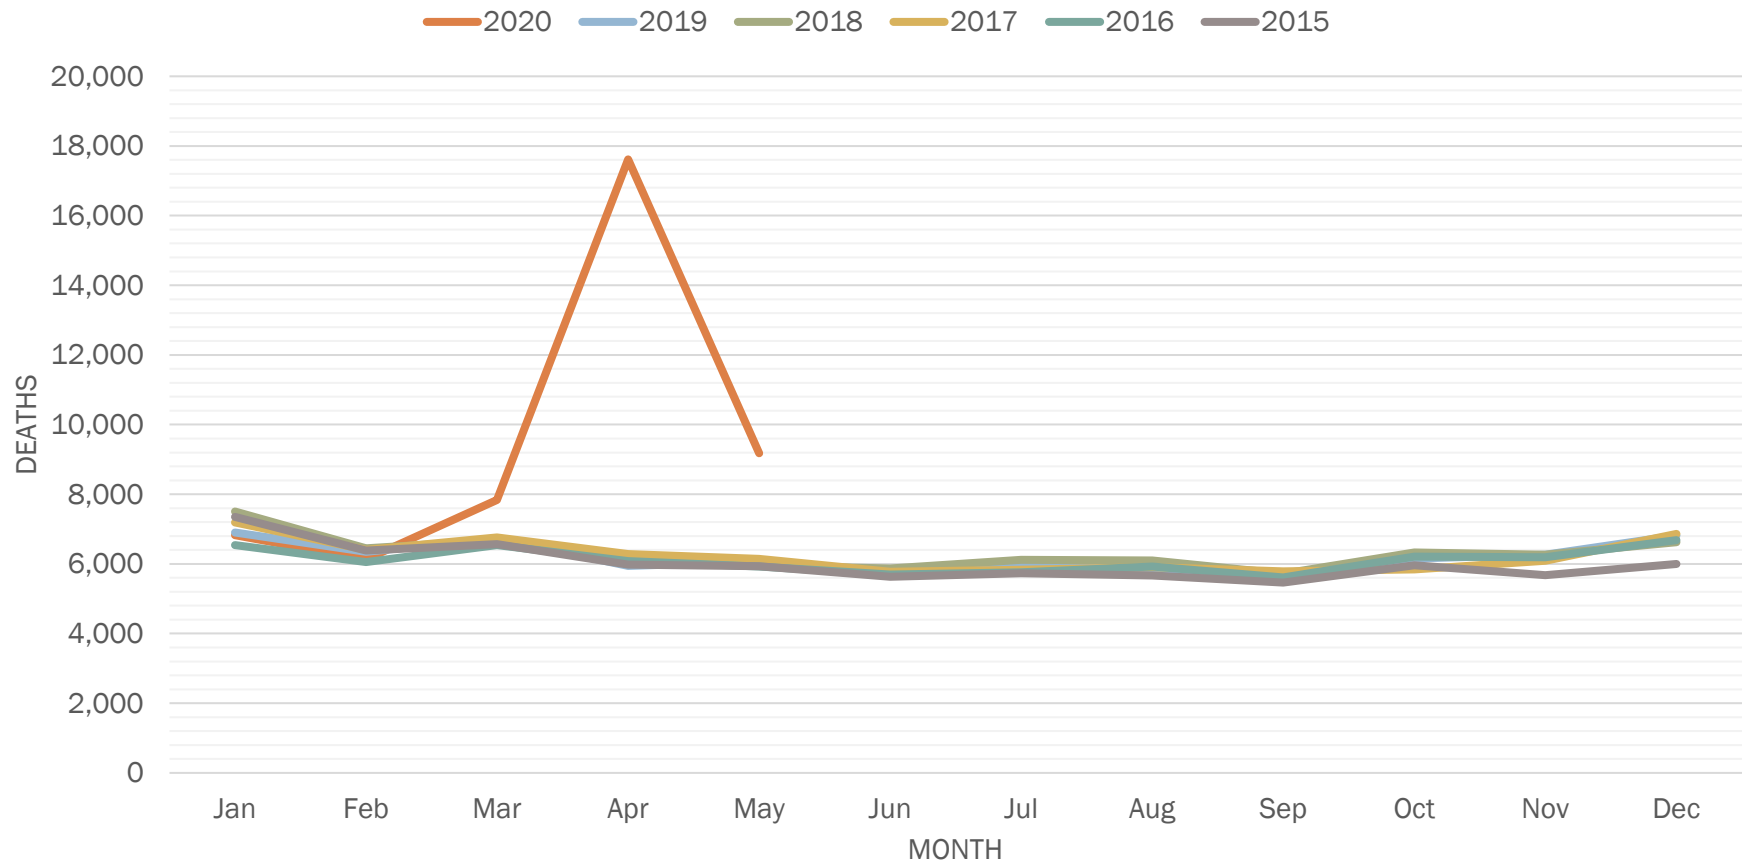

The 2019 counts contain NYC data, but the 2020 counts do **not** yet contain data from NYC.

The data files have not been run through geocoding software, therefore municipality-level data are not yet available.
